

CAPITAL
GARDEN PRODUCTS

Capital Garden Products specialise in the most realistic artificial trees, plants and flowers you will find.

We have plants for everyone and every location; large trees for a dramatic focal point; shrubs to form an outdoor screen; architectural plants for texture and form; or decorative flowers and topiary for smaller window boxes.

We use natural wood for most of our trees to add to the authenticity, even when viewed up-close. We also have a wide range of UV protected foliage for outdoor applications.

We hope you enjoy looking through our catalogue and look forward to hearing from you.

Custom Made Trees

We specialize in manufacturing custom made trees. The trees are made using natural tree trunks with realistic artificial foliage, fruit and flowers.

The trees can be planted in any of our planters and installed in gardens, on roof terraces, or in any interior settings where greenery adds an attractive focal point or finishing touch to a design scheme.

Our most popular bespoke tree is the Olive tree but our extensive repertoire includes any tree using the foliage in the 'Tree' section of this catalogue; ranging from Mango trees to Cherry trees in full blossom.

Top right
Olive trees ready for shipping to Bahrain.
Middle left to right
Olive trees, private roof terrace, London
Mango tree, private residence, Corsica
Chestnut tree, Care Home, UK.
Bottom left to right
Olive tree, Fucina restaurant, London
Willow tree, Maison et Objet, Paris
Cherry blossom tree, Elan Café, London.
